Industrial Maintenance Aerosols

### Sticky Label Remover

CODE: **R267**

The clean way to remove sticky labels

Solvent based blend for the removal of sticky labels from most substrates including many plastics, metals, rubbers, painted surfaces and other impervious materials, leaving no residues or markings.

Benefits:	Dissolves gums and adhesives from self adhesive labels Suitable for most surfaces Leaves no residues High penetrating power
-----------	--

#### Technical Data:

Appearance:	Clear colourless free flowing liquid
Odour:	Strong solvent
Contents:	Blend of propan-2-ol and naphtha with propane and butane propellant
Storage:	Below 50°C
Flash Point:	<0°C
Temperature range:	For use at ambient temperatures
Relative Density:	0.735
Solubility:	Insoluble in water
Pack Sizes:	12 x 400ml cans
Directions for Use:	Shake can well before use and spray liberally onto label or adhesive residue from a distance of 20 to 30cm, ensuring complete coverage. Leave to penetrate and peel or scrape away label once it has turned transparent. A second application may be required for thicker or less porous labels. <b>Test for suitability on an inconspicuous area first, particularly on thermoplastics or unknown substrates.</b>
